The holder accommodates various sizes, from hydroflasks to large fountain drinks, and customers appreciate its secure fit. Almost works TOO well

Reviewed in the United States on June 28, 2025

Color: Black Size: Medium*1 **Verified Purchase**

Let me tell you, this was a huge upgrade from our last cup holder expander. Our last one didn't fit the cup holder and we had to put a can sleeve on it to keep it from moving around too much. It also broke eventually. THIS one, however, is incredibly sturdy. It's easy to set up and adjust to the size of your cup holder. If you set it up at the proper angle, it doesn't budge unless you wiggle it too much. We have those huge Costco thermoses and they fit

perfectly. This is where the "almost" too perfectly comes in. With the non-slip bottom part of the thermos, it slides right in. However, you REALLY have to wiggle it to get it out, which can be a hassle when you're trying to take a drink while you're driving. If you wiggle it too much, it thinks that you are trying to adjust the tightness of the base, which can loosen it a bit. A solution to this would be to remove the non-slip part of the bottle for the time being. I would still rather deal with this than a flimsy cup holder that moved around too much.

Product is great. Came with a faulty screwdriver but highly recommend.

Reviewed in the United States on July 1, 2025

Color: Black Size: Medium*1 **Verified Purchase**

The item is really nice. It has an option to rotate and unscrew the bottom so it locks into place in your cupholder, which is really nice. It has a nice wide space to hold large cups. It has a slit on the side, which is perfect because this is for my husband's coffee cup that has a handle it. Also let you twist the part that holds the drink so you can adjust how large or how small you need I'm not sure what happened with the screwdriver. I included some pictures. It was just a flat piece with no grooves so I think it was supposed to be a Phillips screwdriver. Overall, the product is great worked super well

Large Drink Holder for existing small drink holder.

Reviewed in the United States on May 25, 2025

Color: Black Size: Medium*1 **Verified Purchase**

Worked good for what I needed in My 1987 Corvette. I gave it a 4 star because I wished the rubbers on the inside were a little stiffer. Would help hold some smaller drinks. It did fit my existing drink holder in my 1987 Corvette which are very shallow.

Secures my 32oz Hydroflask in my Wrangler JK

Reviewed in the United States on April 28, 2025

Color: Black Size: Medium*2 **Verified Purchase**

I used these in my 2018 Jeep Wrangler JK. These work so well, they are really easy to install and hold very securely. They twist to expand to fit the cup holder so they adjust to fit many sized cupholders.

I put my 32oz hydroflask in these daily and it stays secure. But it also holds smaller cups securely with the rubber tabs. I would definitely buy these again.

 Hellcatenstein**Stupid simple design, but it works!**

Reviewed in the United States on June 9, 2025

Color: Black Size: Medium*1 **Verified Purchase**

Despite the tapered design of tumblers these days, the cup holders in my Ford Edge are still just not wide enough for most modest tumblers. This easily fixes that problem. It installed into an existing cup holder in seconds, and is a LOT more secure than I expected. The base twists, and the rubber feet secure into place very snugly. Now, I can use the bigger YETI tumblers we've been letting sit around, like a 44oz and up, as well as just regular coffee mugs. Imagine! It's a little pricey, but if you're always struggling to fit bottles and tumblers into your car, it's well worth it.

 Amazon Customer**It fits but getting the cup out is hard.**

Reviewed in the United States on February 26, 2025

Color: Black Size: Medium*1 **Verified Purchase**

I have owned this for a few months. I have a 32 ounce yeti that comes everywhere. The cup holder fits the yeti fine but taking it out of the cup holder is a pain. It's almost too snug and every single time the cup hold comes out with the cup or I have to fight to get it out of the cup holder without the cup holder coming out of the cup holder.
